As a gladiator slave for the Glaive Empire, the Hero, Sumo, is forced to do battle with scores of monsters. While his friends perish, he escapes. After making it out of the castle, Sumo overhears a secret conversation between the Dark Lord and his underling, Julius. They speak of the Tree of Mana and a young girl who holds the key . . .

Illustration comments: Koichi Ishii (Ishii) and Kazuko Shibuya (Shibuya)

© 1991 Square Enix Co., Ltd. All rights reserved.

Sumo (Hero)
ヒーロー

A young man who grew up watching how various people lived, then finally realized what he should do for those most important to him. (Ishii)

In the original Japanese release he wasn't given a name—we wanted a character that lacked a personality so that players could imagine him however they wanted. This kind of character was common at the time. (Shibuya)

Fuji (Heroine)
ヒロイン

A young woman who is confused when she learns about the secret she holds but decides to stay true to herself once she realizes the boundless love her mother has for her. (Ishii)

She also didn't have a name in the Japanese version, so we gave her a very common young-girl character design. (Shibuya)

Mysterious Man
謎の男

A man who gets close to our hero in order to deceive him. This character has long hair, in contrast to the short-haired Julius. The game sprite uses the Red Mage from *Final Fantasy*. (Ishii)

His Red Mage-inspired look was done with *Final Fantasy* in mind. (Shibuya)

A hothead with the soul of a dwarf, he fears no one, despite his small size. He's a pretty popular character who became a staple of the series. (Ishi)
No matter how you look at him, he's just a regular dwarf! (Shibuya)

A hero from long ago. By watching over the important people he wanted to protect, he was able to show them his love. (Ishi)
Because you always need to have an old-man character. And you have to make him kind of cool. (Shibuya)

A warrior blindly devoted to her brother, her only family. She's a strong-willed young woman who does what she can for her younger brother. (Ishi)
Her pose is cute. She's actually my favorite character. (Shibuya)

A bard raised with the love of his older sister. After losing her, he understands for the first time how deep her love truly was, and he plays a song to show his gratitude. (Ishi)
The standard bard was also given simple details. (Shibuya)

Marcie
マミーシーカー

A golem made without a heart. However, he experiences love through his actions. (Ishii)
I'm not good at mechs, so a coworker made a model for me. (Shibuya)

Chocobo
チョコボ

He's always by your side. And even though he doesn't speak, you can tell how much he really cares. (Ishii)
I made his color too yellow, so now he looks like a little chick! (Shibuya)

The Dark Lord
シャドウナイト

A clichéd dark knight with a cruel personality. He doesn't know true love and stands in stark contrast to our hero. (Ishii)
It's easy to tell that he's the bad guy. His armor still looks cool to me. (Shibuya)

Julius
ジュリアス

The clichéd secret boss with his own ambitions. There are a lot of mage characters with long hair, so I tried to design him with short hair. (Ishii)
I like the flow of his noble purple, elegant fabric. Using watercolors made these colors possible. (Shibuya)

Seiken densetsu: Final Fantasy gaiden

Mobile remake (available only in Japan) of the original Game Boy title released fifteen years earlier. One of the major features was making the original monochrome game screen into full color while still following the style of the Game Boy version.

Key Visual

I decided to try drawing a group illustration similar to a movie poster, and this is what I came up with. Looking at it now, it feels a bit like showing off, so it's a little embarrassing! (HACCAN)

Illustration

I expanded on the idea of the main theme, "Rising Sun." I always thought the red birds in the Mana series were flamingos, but their beaks are different, so they might be related to the Japanese crested ibis . . . I just realized this recently. (HACCAN)

Adventures of Mana

(Seiken densetsu: Final Fantasy gaiden)

2016 remake of the Game Boy version released twenty-five years earlier. Now with 3D visuals, this title uses Half Ring Commands, an arranged version of *Secret of Mana*'s Ring Command battle system.

Illustration comments: HACCAN

Key Visual

I wanted to give it the same atmosphere as when it first came out for the Game Boy, and I designed the composition so that the vegetation would frame the picture. Eighties and nineties fantasy had a lot of illustrations filled with dream-like, romantic imagery, and here you can get a feel for its unique charm. (HACCAN)

Lester

● **Amanda & Lester:** Amanda and Lester are siblings, so they have the same hair and skin color, but I snuck in different eye colors as the only difference. By the way, in the Lester drawing, the Hero is holding Amanda's throwing knife. (HACCAN)

When drawing the Tree of Mana, I always stare at Isono-san's book of paintings (📖) and somehow manage to do it. He was kind enough to sign his name in my copy of his book, and it's something I'll treasure forever. (HACCAN)

One day, a timid young boy named Randi is beckoned by a mysterious voice, which leads him to a rusty sword embedded inside a rock. However, as soon as he removes the sword, disaster strikes his village. The townspeople believe it is all his fault, and they cast him out. With power restored to the Mana Sword, Randi's difficult adventure begins . . .

● Popoi
ポポイ

● Flammie
フラミー

● **Randi**: He's a hothead deep down, but he isn't fully confident yet, and he grows over the course of the adventure. He was written to be one year younger than Primm, so it was easy for him to be treated like a little brother. ● **Primm**: It's a mystery why her ears are pointed, but she was designed to be a young girl who appeared strong-willed but also had a tender side. ● **Popoi**: He was designed to be a neutral character who looks at things somewhat differently when compared with the relatively straightforward Randi and Primm. (Tanaka)

● **Randi, Popoi & Primm**
 ランディ、ポポイ、プリム

● **Randi**: [Shinichi] Kameoka's most well-known boy character design. You could say that this is where Kameoka characters really began. When I saw his character sprites, I thought, "Well, I guess I don't have to bother making them anymore." ● **Popoi**: A character drawn by [Tetsuya] Takahashi. His outline looks like Kurobe, from the children's anime series *Jungle Kurobe*. He acts as the go-between for Randi and Primm, and he always wishes for everyone else's happiness over his own. ● **Primm**: Kameoka's most well-known girl character. A young girl who is the embodiment of strength of will and kindness. She has a ponytail and clothing like Akubi-chan, from the classic anime series *The Genie Family*. (Ishi)

● **Randi, Popoi & Primm**: A very Kameoka-style drawing with light coloring. If Randi is in the more neutral position as the main character, then Primm and Popoi's personalities are exact opposites, like two sides of the same coin. (Tanaka)

● **Flammie**
 フラミー

The soft and fluffy dragon everybody loves. He was first drawn by Tanaka-san's wife, Hiromi. He was based on Falkor from *The NeverEnding Story*. (Ishi)
 While inspired by Falkor from *The NeverEnding Story*, he was made to be chubbier and friendlier. (Tanaka)

Gemma
ジェマ

A character who functions as a sort of teacher. His look overlaps with Bogard's from *Final Fantasy Adventure*. (Ishii)

Luka
ルサ・ルカ

A sexy water maiden. I had an image in my mind of Starsha, drawn by Leiji Matsumoto. (Ishii)

Neko
ニキータ

This character was created because I wanted a race of greedy cats. We were going for a *Mana* version of *Puss in Boots*. (Ishii)

I pictured him as being stingy. You can rely on him to solve any problem you have as long as he gets paid, but he can't be trusted. (Tanaka)

Cannon Brothers
大砲屋

An odd tribe of hairy people. I picture them cleaning out the cannons with their body hair. Of course, when you go to meet the brothers, you get shot out of a cannon. (Ishii)

We wanted to use the Super Famicom's Mode 7 scaling and rotation effects, so we included the large cannon as a way of getting around. I wish we would have given it a proper name. (Tanaka)

Secret of Mana

(Seiken densetsu 2)

This section covers the *Secret of Mana* release on smartphones and feature phones. There were only a few major changes made from the original, but the party members—Randi, Primm, Popoi, and Flammie—all received new designs.

Key Visual

I played *Secret of Mana* as a middle-schooler, and it was an important title that really impacted my life, so it was a dream come true when I got hired to do the art! That joy can be seen on the faces of Randi and the others. (HACCAN)

Illustration

When I first rode Flammie, I had this really surprising sensation of floating in the air that came through the controller, so I tried to capture that here. It's really cute how Flammie flies in when you use the Flammie Drum. (HACCAN)

Six young adventurers set out on their own journeys. After encountering a Faerie during their travels, their fates are changed forever. Possessed by the Faerie, the main character is instructed to take the Mana Sword, thus releasing the Goddess of Mana, saving the world, and granting them their wish. And thus begins the start of the real adventure of the Sword of Mana.

Box Art

Secret of Mana had a lot of green, so we made blue the theme for this one to pair them together. (Tanaka)

Duran

As Duran is an orthodox main character, it was sometimes hard to bring out his distinct characteristics, specifically his personality. Conversely, by making Duran a neutral character, I thought it might make the other characters' personalities stand out more. (Tanaka)

Kevin

A hothead who loses sight of everything around him. He can't stand injustices. He has a complex relationship with his parents, but he loves animals. That gives you some idea of his personality. (Tanaka)

Hawkeye

If Duran is the red Power Ranger, then Hawkeye would be black or blue. He might be stuck up, but deep down, he's a good guy. (Tanaka)

Angela

Her personality was made to be a bit more adult than Primm from *Secret of Mana*. But she also has the worries of a young woman. (Tanaka)

Charlotte

We just used the concept for Popoi (seen on page 40) from *Secret of Mana* when coming up with her character. As the "straight man" character, she says things that are hard to say. (Tanaka)

Riesz

She was designed to be an Amazon warrior, but as a princess, she still has an elegance and a polite way of speaking. She also has the strength to not give up when confronted with the tragic fate of losing her kingdom. (Tanaka)

The idea was of him swallowing the final boss's death and disappearing. ●Crimson Lotus Wizard: For Duran's rival, I wanted a stylish mage. One of Nobuteru-sensei's superb character designs. ●Isabella: I wanted to draw a woman who sacrifices herself for her unrequited love for the Dark Prince. She isn't drawn with too much detail in the game, but among the villains, she's one that I especially put a lot of thought into. (Ishi)

Collection of Mana

(Seiken densetsu collection)

Launch Date: June 1, 2017 Switch

A collection for the twenty-fifth anniversary of the Mana series, featuring three titles: *Final Fantasy Adventure*, *Secret of Mana*, and *Trials of Mana*. It also features options such as a screen-change mode and quick save.

Illustration comments: HACCAN

© 1991, 1993, 1995, 2017 Square Enix Co., Ltd. All rights reserved.

Illustration

When you think of the Mana series, the Ring Command system comes to mind, so I tried to make the composition in a ring shape. I personally like this one because it became a single image that captured Mana. I was using ancient painting software, so I couldn't rotate the canvas and had to tilt my head to color it. (HACCAN)

Box Art

I wanted to draw something that looked busy and would be appropriate for a series collection, so I went beyond the confines of the series and put all these various characters together. When drawing Primm, the heroine wearing a flower crown, and Popoi and Charlotte riding on Flammie, I was overwhelmed with the thought, "Congratulations, everyone, on your twenty-fifth anniversary!" (HACCAN)
